

# 2016 **BlueCare Dental PPO**<sup>SM</sup> National Network

*One of the Nation's Largest Networks of Dental Access Points\**

With one of the largest national networks of dentist access points\*, BlueCare Dental PPO offers members flexibility in choosing a dentist.

With BlueCare Dental PPO, members may receive coverage for services obtained from any licensed dentist in the United States; however, when an in-network dentist is selected, the network offers negotiated discounts for covered services - which is why networks are so important in choosing a dental plan. Now that's something to smile about!

## Choosing an in-network dentist has many advantages:

- Lower out-of-pocket costs for covered services in most cases
- No billing the member for the amount not covered by their insurance plan
- No referral required for specialty dentists
- Contracting dentists will submit claim on member's behalf

## Finding a dentist is easy

Members may access our directories by visiting [bcbstx.com](http://bcbstx.com) and accessing the online Provider Finder<sup>®</sup> or by calling the Customer Service toll-free number found on the back of every ID Card. Provider Finder allows members the ability to create personalized provider directories based on provider specialty, address or mileage preferences. Provider data is updated weekly and can be printed from the Internet or emailed directly to any email domain.
