

### ***About Steve Hamman***

Steve Hamman is senior vice president, Enterprise Network Solutions, for Blue Cross and Blue Shield Plans operating in Illinois, Montana, New Mexico, Oklahoma and Texas.

Hamman is accountable for provider and network analytics, network strategy development, governance and operations for strategic provider relationships and new care model risk-sharing development and execution across the five states.

He joined Blue Cross and Blue Shield of Illinois (BCBSIL) in 1991 and has served in a variety of management roles within the company during his tenure. Prior to his current role, Hamman led the network development, management and provider performance across all commercial market segments, Medicare and Medicaid for BCBSIL.

Hamman received his bachelor's degree in economics and mathematics from Colorado College. He also earned a master's degree in Business Administration in information systems from the Quinlan School of Business at Loyola University in Chicago.
